**DESCRIPTION**

Daimler Super V8, 2002, X308, one of the last made, and in cherished ownership, now having to sell :( Metallic black with chrome effect refurbished wheels and colour coded centre caps. Recently MoT'd, expires April 2025. Car has covered 110K miles, and only used sparingly in the last 2 years of ownership. Supercharged 4 litre engine is superb - effortless performance and remarkably economical. Rare 4 seat configuration. Full leather interior is in excellent condition. Was dry stored for many years before I purchased it, and the underneath was so clean I Waxoyled it right away, and has been done once more since. Fully serviced when purchased, and again a year later. Full book pack. Private registration not included although negotiable.
