DESCRIPTION

Approximately two years old. Purchased direct from the factory, professionally fitted in my Porsche 968 Club Sport and used regularly plus a trip to Germany. Includes Bluetooth etc. More recently fitted to my early model year 2000 Boxster S and worked very successfully. Due to a change of circumstances I am selling the complete package at a very cheap price, cost me over £900. Comes complete with full instructions and special factory dash fittings to suit early Boxsters. Buyer collects.
