**DESCRIPTION**

Just MOT'd! I've owned this Ford Focus ST-3 SIV for just under 3 years. I bought the car as a Stage 2 already and the work that's been done is excellent. It's very comfortable with full leather interior & heated seats. The car has an output of 340bhp with a full RamAir performance induction kit. I'm not sure what brand the exhaust system is but it sounds amazing. The sound of the car is honestly one of the highlights, you'll never get bored of the turbo whistling and the occasional misfire! I am choosing to sell the car because I'm leaving for the Marines and it'll just be sitting in the garage for a year, so it deserves to be driven by someone who will get as much enjoyment out of it as I have. I will be very sad to see it go.
