**DESCRIPTION**

1979 MGB Roadster ERW 132T in Vermillion (not orange or red!!). MOT history can be viewed on the government website. I have owned this MGB since 2011. When I purchased her she had already undergone an extensive restoration during 2000 - 2005. Since I purchased her and during my ownership she has benefited from the following, plus lots more that can be seen from an extensive history file. New hood. New mohair half tonneau cover (supplied by Don Trimmings). Full vinyl tonneau also included. New full leather seats and head rests. New carpet set including spare wheel cover. Fully refurbished Rostyle wheels (MG Owners Club). New electronic ignition including plugs, leads, distributor cap and coil etc. New Mota lita leather steering wheel. Full rolling road tune up in 2021 by BD Engineering (Newington Kent). This MGB is nearly 45 years old so is tax and mot exempt. During my ownership I have maintained her regardless of cost and she has passed every MOT without any advisories (her MOT history can be viewed on the government website). The last MOT expired on the 16th April 2022 but I would be more than happy to put a new full 12 months MOT on her for any genuinely interested buyer). The cart is garaged and never goes out in the wet! The only reason I am selling is due to lack of use, approximately 500 miles per year in the last 12 years and that we have downsized to a bungalow. In my opinion you would be hard pushed to find a better example but I encourage you to view, including any RAC or similar inspection to draw your own
