DESCRIPTION

2009 Land Rover Defender 90 Registered in December 2009 with 28000 Miles, 3 previous owners. FSH, Forest green metallic with Ivory hardtop. Well cared for vehicle with some nice touches. The rear loading section and front cab has been soundproofed throughout, which drastically reduces road noise thus makes it a pleasure on any distance. There is also 12v leisure adapter in the rear with switchable USB and cigarette lighter plugs, additionally an extra folding passenger seat has been fitted. The cab remains factory standard apart from the addition of a Momo steering wheel. Essential security deadlocks have been fitted to all three openings. Externally it remains factory standard apart from the 4 x Shark tooth alloys with 4 x New Cooper Discoverer Tyres and the addition of a rear Lazer LED floodlight to help on dark nights. Noteworthy are the essential security deadlocks fitted to all three openings. The 2.4 Puma engine is slightly more desirable as is free of the troublesome diesel particulate filter which tends to block when not in regular use. A new coating of Waxoil has just been applied to the chassis and underbody which is in superb condition and shows no signs of being used off road. Comes with choice of existing private plate or can be put back to its original. Runs and drives beautifully, Two key sets, will come with an additional service and booklet stamp.
